OOONA® APIs

Enterprise integrations
of OOONA's leading solutions
for **workflow automation**

BOOST YOUR PLATFORM WITH THE OOONA TOOLS API

Enjoy all the functionality of OOONA Tools from within your own platform. Simple API integration of our popular and continually evolving toolkit, complete with detailed documentation to ensure a smooth and efficient process.

OOONA CONVERT & QC API

Validate and convert caption and subtitle files

- Automatically convert and validate caption and subtitle files during ingest, post-production and pre-delivery stages.
- Scan files for critical issues and generate error reports.
- Customize the checks you want to perform using OOONA's popular automation features.
- Dramatically reduce the number of assets requiring manual QC and cut down on file rejections and re-deliveries.
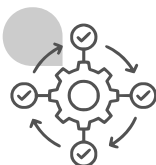

BENEFITS

Access OOONA's market-leading solutions from within your platform
